Robert Manik, Managing Director, Language Link UK Ltd

At **Language Link UK** we have been leading the way in legal translation services for over 20 years. We have extensive experience in providing language solutions to law firms, legal professionals, chambers, embassies and government departments

At Language Link UK we provide high quality legal translations that are **reliable, accurate** and always supplied with an exceptional level of **confidentiality**. Our skilled legal linguists are not only **native speakers** of the language that they're translating to/from but all have **international law degrees, LLB qualifications** or are **qualified solicitors or barristers** to ensure an **expert** translation. Coupled with our unrivalled client support, we provide a high calibre service that we are proud to say is part of our unique selling point.

ACCURATE, EXPERT AND PROFESSIONAL

We understand that it is vital that your documents mean exactly the same when translated into other languages as they do in English.

Our legal team has a well-deserved reputation for providing **quality, error-free translations** – our legal translations are considered, for many purposes, **equal in legal effect to the original** documents.

We are also recognised for the quality of our translations by embassies and can arrange for documents to be **certified, legalised** and **notarised**, saving time and money.

All our files are **security encrypted** for peace of mind and in addition we hold **Quality Standard BS EN 15038:2006** accreditation, which means our processes and procedures have been **rigorously reviewed** and vetted, too.
